COMMENTS AND CORRECTIVE ACTIONS FOR SWPPP COMPLIANCE

Identify the problem and its location. If appropriate, describe (in general terms) what needs to be completed. However, only if qualified (e.g., you are a designer) should you be mandating specific BMP's to install. Include the date when corrections are made.

I could not find the SWPPP on site, to answer some of the questions correctly. There has been work done on the site and there are controls in place to protect the storm water runoff, I did not see any issues on the site at the time of this inspection.

I have not received a copy of the NOI to know what the state permit number is and when it expires, if this information could be submitted to me.

Inspector, please list all applicable SEV codes: _____
