Weber County Engineering
Dana Q. Shuler, P.E.
2380 Washington Blvd.
Suite 240
Ogden, UT 84401

Dear Dana,

Enclosed for your project records is the signed Decision Memo disclosing the environmental issues based on your project submittal for access to private property through the National Forest.

With this letter, you will have permission to use the road through Willows Campground and through site #12 to the river as well as using Road #20194 to the Jones Cabin on private property and the Camp Red Cliff road, #20191. This includes the bridge next to Upper Meadows campground.

The Decision Memo contains mitigation measures that will be required of Weber County and your contractor. Many of them are also included in the Stream Alteration Permit.

This does not include permission to stock pile materials on National Forest. We will need to review in the field the locations and the materials stock piled. Further mitigation will be required, mainly to prevent noxious plant seeds.

Rick Vallejos or Juan Barrientez will be your contacts during this project. They will represent this office for decisions concerning all aspects of the project on National Forest.

We will expect to hear from you concerning dates to start and coordination for site specific details.

If you have questions or comments, please contact this office. Our phone number is in the letterhead.

Sincerely,

ROBERT SANCHEZ
Ogden District Ranger
