Ryan,

We have made the changes to the plat as shown on the redline plat you provided, with the following question on the County Signature Blocks:

The code that has been referenced -- 106-8-1 (d) -- to replace the Weber County Commission Acceptance is actually the Signature Block for the Weber County Planning Commission - 2 signature blocks down, which the reviewer say to remove???

We have replace the Weber County Commission block with the 106-8-1 (d) and removed the last signature block, but they should have just crossed out the Weber County Commission Acceptance Block.
Just making sure this is what they wanted.

I have included a copy of the referenced Code.

Please review.

Thanks
