**RE: Samarel Subdivision**

Felix,

The access easement has been dimensioned according to the most recent comments made by Darrel Woodruff.

*Comment: "The location, widths, and other dimensions of proposed public streets, private streets, private access rights of way, or alleys with proper labeling of spaces to be dedicated to public or designated as private. WCO 106-1-5(a)(7)*

*All lines and curves for private access and hammerhead need to be dimensioned with bearing and distance*

*Also check all dimensions for hammerhead closure*

**Response: All lines and curves have been properly dimensioned. The easement curve table has been updated. The curve and line tables for the property line and the line table for the easement have been added. All dimensions have been checked for closure.**
