

Quiet Batt® Soundproofing Insulation

Features & Benefits:

- **Excellent Sound Absorption Performance** - Quiet Batt® absorbs sound within wall and ceiling cavities, reducing the sound transfer from one space to the next. Quiet Batt® has the highest NRC obtainable of .95, which means it absorbs 100% of sound.
- **Keep it Green** - Quiet Batt® is manufactured with 80% recycled natural cotton fibers.
- **Excellent Flammability Rating** – Quiet Batt® has a Class A™ flammability rating. This product passes most building code flammability requirements for exposed materials.
- **Easy to Handle** - Quiet Batt® is itch free and does not contain formaldehydes or other harmful chemicals.

General Information:

Quiet Batt® is a premium high-performance soundproofing insulation with thermal qualities. Acoustically, Quiet Batt® often outperforms typical fiberglass, cellulose and foam insulations.

Quiet Batt® Soundproofing Insulation products are designed for interior and exterior walls, ceilings and attic applications. Our user-friendly home and commercial insulation materials are easy to install with minimal tools required. Quiet Batt® installs with a tight friction fit between wood and metal studs to minimize sound and thermal energy transmission.

Quiet Batt® Soundproofing Insulation can be used separately or in conjunction with a variety of our other soundproofing products. Quiet Batt® can be cut with a utility knife or simply tear off unneeded pieces.

Applications:

- Professional and Home Theaters • Professional and Home Recording Studios • Offices • Homes, Condos and Apartments
- Band practice rooms • Broadcast Studios • Workshops • Equipment Enclosures
- Any environment that needs soundproofing

Acoustic Data:

frequency	125	250	500	1K	2K	4K	NRC*	SAA*
3 inch	.39	.86	.99	.92	.96	1.01	0.95	0.94

* NRC = noise reduction coefficient

*SAA = sound absorption average

Dog Kennel & Daycare Soundproofing

Dog Kennel Soundproofing...Why You Need It

Let's face it...there's no way to stop the noise of barking dogs. The only way to fix dog kennel noise issues is by installing proper dog kennel soundproofing.

Dog Kennels, with their concrete floors and cinderblock walls, are perfect for creating unwanted echoes and amplifying noise. Because the surfaces are hard, sound waves bounce off them and back into the space. However, hard surfaces are easy-to-clean, which is important in your business.

Dog owners want to make sure their dog is happy. If they visit your kennel and hear the piercing sound of barking dogs, they won't want to use your kennel. Your business suffers.

Another common problem of dog kennels is complaints from neighbors. Barking dogs can disturb nearby homes and businesses.

Many dog kennel owners come to Soundproof Cow to fix their noise problems. Most don't realize how large of a problem the barking was until after they install dog kennel soundproofing products.

What Dog Kennel Soundproofing Can Do for You

Dog Kennel Soundproofing products:

- Keep the noise of barking dogs within your building so you don't get complaints from neighbors
- Reduce the noise of barking dogs within your kennel...dog owners will be more likely to leave their dog in your care and your business will improve
- Provide a safe working environment for your employees by reducing the noise volume
