Summit County

Paul C. Summers
Davis County

Weber County

RE: Holker Haven Subdivision

To Whom It May Concern:

At present, the Weber Basin Water Conservancy District (District) has water available for purchase. We are capable of supplying water to various areas within our District boundaries, including Weber County. Please note that our water is in high demand and is allocated on a first-come, first-serve basis.

Levanta LLC, the owner of Weber County parcel 22-040-0037 has expressed interest in entering into a contract with the District for the use of up to 1.3 acre-feet of replacement water for two lots in a 3-lot development. Under the proposed contract, the District would secure up to 0.65 acre-feet of water per lot, depending on lot size. This water would be sourced from private underground wells located on each individual lot.

We wish to inform all interested parties that all contracts must undergo consideration and approval at a District board meeting. Additionally, approval from the Utah State Engineer is required for any water under contract to be diverted. This water will be used primarily as culinary water for these properties.

Please feel free to contact our office at (801) 771-1677 should you have any further questions.

Sincerely,

Kendall R. Searle
Administration Manager
